

**Product Name:** CISTUS Antivirus Honey Lemon Lozenge

**Active Substances:**

Active Ingredient: Cistus (Cistus Creticus) Extract, Arabic Gum.

No preservatives and colorants.

Sugar, gluten and lactose free.

Cistus Antivirus is a medical device product. Efficacy and safety have been tested according to the European Medical Device Directive (93/42/EEC)

**Form:** 10 lozenges with natural active ingredients, in honey & lemon taste

**Therapeutic indications:**

Cistus extract forms through its natural active substances a protective film over the oral and pharyngeal mucosa.

In which cases shall Cistus Antivirus be applied?

- To support by physical means the natural barrier function of the oral and pharyngeal mucosa against viruses and bacteria infecting the respiratory tract.
- For the prevention of infectious and inflammatory airways diseases of viral and bacterial origin by physical (mechanical) barrier formation on the pharyngeal mucosa.
- For the alleviation of cough and dry cough.
- Also applicable at the first signs of scratching in the throat.

**Posology and method of administration:**

Dissolve a lozenge slowly in the mouth 3 to 6 times a day.
